-

1. Getting Started

Creating an Account

To begin using the application, you first need to create an account.

1. **Main Screen:** When you open the application, you will see the main screen. Press the login button at the top right corner to access the login screen.
2. **Login Screen:** If you already have an account you can log in. Else press the register button.
3. **Register Button:** Click on the **Register** button.
4. **Create Account:** In the registration view, enter the following details:
 - **Username:** Choose a unique username.
 - **Password:** Set a secure password with a minimum of 8 characters.
5. Click the **Register** button to create your account. After registering, you will be automatically redirected back to the login view.

Logging In

Once you have registered your account:

1. On the **Login View**, enter your **Username** and **Password**.
2. Click the **Login** button.
3. If your credentials are correct, you will be forwarded to the **Dashboard** view.

Dashboard Overview

The **Dashboard** view is where you can manage all aspects of your inventory, products, and reports. It provides an overview of the system's main functions, including:

- **Create and Delete Inventories**
 - **Create, Read, Update, and Delete Products**
 - **Generate Reports**
 - **View Insights** on inventory products.
-

2. Managing Inventories

Creating an Inventory

To create a new inventory:

1. Go to the **Dashboard** view.
2. Click on the **Create Inventory** button.
3. Enter the name of the inventory (e.g., MyInventory).
4. Click **Save** to create the inventory.

Deleting an Inventory

To delete an inventory:

1. From the **Dashboard** view, go to the **Inventories** section.
2. Select the inventory you wish to delete.

3. Click on the **Delete** button.
-

3. Managing Products

Creating a Product

To add a new product:

1. Navigate to the **Products** section in the **Dashboard**.
2. Click on the **Add Product** button.
3. Fill in the product details:
 - **Product Name**: Enter the product's name.
 - **Price**: Specify the product's price.
 - **Quantity**: Enter the available quantity of the product.
 - **Date**: Select the expiration date of the product
 - **Category**: Enter the category for the product (e.g., Food, Electronics).
 - **Supplier**: Enter the supplier for this product.
4. Click **Save** to add the product to your inventory.

Reading Products

To view all products:

1. In the **Dashboard**, go to the **dashboard** tab.
2. A list of products will appear from the selected inventory, showing their key details (e.g., name, price, quantity).
3. You can filter and search for specific products by name.

Updating Products

To update a product's information:

1. In the **Products** section, select the product you want to update.
2. Click on the **Edit** button.
3. Modify the product details (e.g., price, quantity, category).
4. Click **Save** to save the changes.

Deleting Products

To delete a product:

1. Navigate to the **Products** section in the **Dashboard**.
 2. Select the product to delete.
 3. Click on the **Delete** button.
-

4. Insights

Viewing Insights

The **Insights** tab provides detailed charts and analysis based on the selected inventory's products. To view the insights:

1. From the **Dashboard**, click on the **Insights** tab.
 2. Choose the inventory for which you want to see the insights.
 3. The application will generate charts displaying various metrics like stock levels, expiration dates etc.
 4. Use the charts to analyze and make informed decisions about inventory management.
-

5. Reports

Generating Reports

To generate a report for an inventory:

1. From the **Dashboard**, click on the **Reports** tab.
 2. Select the inventory you want the report to focus on.
 3. Click **Generate Report** to create the report.
 4. The report will be saved to the database and can be later accessed by the reports selection box.
-

Conclusion

With this application, you have all the tools you need to manage inventories, track products, generate insightful reports, and keep your operations running smoothly.
